DETAILED ACTION

Status of Claims

1. This action is in reply to the restriction election filed on 12 July 2006.
2. Claims 1, 2, 5, 9, 10, and 14-17 have been selected without traverse.
3. Claims 3, 4, 6-8, 11, and 12 have been withdrawn from consideration.
4. Claims 1-17 are currently pending and claims 1, 2, 5, 9, 10, and 14-17 have been examined.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limitation *time information acquisition means for acquiring time information from outside* is vague because the term outside is indistinct.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1, 2, 5, 9, 10, and 14-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Stefik et al. (US 5,629,980 A).

Examiner's Note: The Examiner has pointed out particular references contained in the prior art of record within the body of this action for the convenience of the Applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply. Applicant, in preparing the response, should consider fully the entire reference as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior art or disclosed by the Examiner.

Claims 1, 2, 5, 9, 10, and 14-17:

Stefik, in Figure 15 as well as associated text, discloses a digital rights management system wherein a user purchases the rights to render a digital work based on a predetermined amount of time. See at least items 1512-1515. Stefik also discloses adding sets of rights i.e. extending the time that a digital work may be rendered. See at least Figure 15, Item 1509 as well as related text. Stefik inherently discloses a counter that measures time elapsed, and preventing further use of a paid file when the time allotted for use runs out.
